Why Ambica

In 1983, a Goan company called “AMBICA” came into being, and we are positively delighted with how far we have come. In fact, we were even recognized by Times Food in 2020 - an achievement that fills us with immense pride. We love to revel in every moment, and our entire philosophy centers around our beloved customers.

Our food is one-of-a-kind, made with love, and guaranteed to be both wholesome and flavorful for Chicken Lovers. We use cutting-edge German technology in the production process, and our chickens are reared without any steroids, and with a considerable amount of affection. We refuse to use any fillers, preferring to use pure, succulent chicken instead. We own our own environmentally controlled farms and have a farm-to-fork philosophy, featuring branches all over.

As an established name in the chicken food industry, we have built an exceptionally robust distribution network . Nevertheless, we have bigger plans! We aspire to grow even more significant, with our dedicated team and committed channel partners, leaving no stone unturned. We take great care to develop world-class items that generate a delightful “WOW” moment for our customers. Currently, Ambica Chicken is under the leadership of Dr. Sameer Kuncoliekar, who wrote the book “Feed the Entrepreneur in You,” and we are thrilled to continue raising the bar for quality products with a friendly, welcoming tone.

Why opt for Ready-To-Cook products

Hey there! Have you ever thought about trying Ready-To-Cook products? Ambica is a brand that's famous for its amazing quality and mouth-watering taste. Director Message

Progress for me has never been a dream. It has always been a distant reality and once one milestone is achieved, there is always another one waiting to be crossed. Almost instantly, Ambica became a prominent name in its business segment, but like every entrepreneur sticks to their dream, I always wanted to push my company to more prosperous milestones. More than being a national player, I always perceived my company as a unit that could make a difference with its quality and competitively priced products.

Overcoming challenge after challenge with the support of my brilliant team, I have been successful in bringing AMBICA to a new milestone of global recognition.

The journey of AMBICA is never ending. But with the support of my team and clients, I am confident that the company will continue to scale milestones of excellence for years to come.
